HERE ARE OVER SEVENTY GAMES TO HELP YOUR CHILD LEARN TO READ--AND LOVE IT. Peggy Kaye's Games for Reading helps children read by doing just what kids like best: playing games. There is a "bingo" game that helps children learn vocabulary. There is a rhyming game that helps them hear letter sounds more accurately. There are mazes and puzzles, games that train the eye to see patterns of letters, games that train the ear so a child can sound out words, games that awaken a child's imagination and creativity, and games that provide the right spark to fire a child's enthusiasm for reading. There are games in which your child has to act silly and games--sure to be any child's favorite--in which you do. Easy to follow and easy to play, these games are ideal for busy, working parents. You can read a game in a few minutes and start to play right away. You can play on car trips, while doing the laundry, or while cooking. These games are so much fun for the whole family that you may forget their serious purpose. But they will help all beginning readers--those who have reading problems and those who do not--learn to read and want to read. Games for Reading also includes a list of easy-to-read books and books for reading aloud, and a "Note to Teachers" on how to play these games in their classrooms.

PARENTING NEVER ENDS. From the founders of the #1 site for parents of teens and young adults comes an essential guide for building strong relationships with your teens and preparing them to successfully launch into adulthood The high school and college years: an extended roller coaster of academics, friends, first loves, first break-ups, driver's ed, jobs, and everything in between. Kids are constantly changing and how we parent them must change, too. But how do we stay close as a family as our lives move apart? Enter the co-founders of Grown and Flown, Lisa Heffernan and Mary Dell Harrington. In the midst of guiding their own kids through this transition, they launched what has become the largest website and online community for parents of fifteen to twenty-five year olds. Now they've compiled new takeaways and fresh insights from all that they've learned into this handy, must-have guide. Grown and Flown is a one-stop resource for parenting teenagers, leading up to—and through—high school and those first years of independence. It covers everything from the monumental (how to let your kids go) to the mundane (how to shop for a dorm room). Organized by topic—such as academics, anxiety and mental health, college life—it features a combination of stories, advice from professionals, and practical sidebars. Consider this your parenting lifeline: an easy-to-use manual that offers support and perspective. Grown and Flown is required reading for anyone looking to raise an adult with whom you have an enduring, profound connection.

of increasing difficulty. Race to get rid of your cards by matching sounds and letters, and play wild cards to trip up your opponents! Blah Blah Blah is a hilariously fun card game, perfect for kids who are just starting to learn to read. Master decoding words using phonics with these three decks of increasing difficulty. Race to get rid of your cards by matching sounds and letters, and play wild cards to trip up your opponents! How does Blah Blah Blah work? Every card features a word consisting of three letters (or groups of letters). Each player takes seven cards. One card is placed face-up on the table with the rest of the deck in a pile, face-down. Players must play a card from their hand that contains at least one of the letters that are in the word on the table. The first player to get rid of all their cards wins. But beware! Wild cards hidden in the deck can force you to skip your turn or draw more cards. Blah Blah Blah was developed with a unique proprietary algorithm by our machine learning team to make sure it works. And it was tested with teachers and kids to make sure they love it! Why are phonics so important? English consists of about 44 phonemes (sound variations), but more than 170 graphemes (different written representations for these sounds). This means that English has no strict one-to-one correspondence between letters and sounds, but it's also not entirely irregular. It involves numerous patterns and regularities. Phonics is the method that helps children become aware of these regularities, and it's proven to be very effective.

Sometimes in these days of expensive toys and gadgets we forget that a simple pack of cards (or two) can provide hours of fun. Cards are inexpensive,

easily portable and endlessly adaptable. Families can enjoy a game together, kids can play in groups on their own, and a solitary child can while away the hours playing solitaire games, practicing shuffling and dealing, or building card houses. Put a pack of cards in your pocket or handbag and this book onto your kindle and you'll always have entertainment ready! Card games also build all sorts of skills. Younger children will encounter number recognition, sorting problems, fine motor skills, taking turns, practicing patience. Older children will start to use their strategic thinking skills and can benefit from watching (and trying to remember) the cards that other players put down or play and working out odds. So get the cards out and have a go! There are easy instructions for 36 of the best card games for children and families in this book to choose from, and I know you'll find something fun - whether you are looking for a quiet game for 2 kids, a rowdy game for a family gathering, or a game which will keep a group of teenagers and younger children entertained.

Card games offer loads of fun and one of the best socializing experiences out there.
