The New York Times bestselling graphic memoir from actor/author/activist George Takei returns in a deluxe edition with 16 pages of bonus material! Experience the forces that shaped an American icon -- and America itself -- in this gripping tale of courage, country, loyalty, and love. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. But long before he braved new frontiers in STAR TREK, he woke up as a four-year-old boy to find his own birth country at war with his father's -- and their entire family forced from their home into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. **THEY CALLED US ENEMY** is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother's hard choices, his father's tested faith in democracy, and the way those experiences planted the seeds for his astonishing future. What does it mean to be American? Who gets to decide? George Takei joins cowriters Justin Eisinger & Steven Scott and artist Harmony Becker for the journey of a lifetime.

Achievement) Reading Literacy Study, a study compared United States fourth- and ninth-grade students to students in 32 other countries; examined relationships between reading comprehension and aspects of family, schooling, and community; and investigated the nature of reading instruction in American classrooms. National samples of classes at the grade level containing the most 9-year-olds and 14-year-olds were used. A "world average" was constructed of the 18 participating nations that are also members of the Organization for Economic Cooperation and Development (OECD). Results indicated that (1) American fourth graders outperformed students from all other countries except Finland; (2) American ninth graders' performance was closely grouped with that of students from 15 other nations; (3) in the United States, White students read better than Black and Hispanic students; (4) most groups of American students outperformed the OECD average; (5) students whose parents did not finish high school read at about the same level as the OECD average at fourth grade, but fell below the average in the ninth grade; (6) when differences in wealth, race/ethnicity, level of parental education, and other related attributes were taken into account, children from one-parent mother-only families did as well as children from two-parent families; (7) parents' educational attainment influenced reading comprehension over and above other aspects of family background; (8) what teachers said they believed about reading instruction differed markedly from what they actually did and had students do. (Contains 70 references, 43 notes, 4 exhibits, 3 tables, and 29 figures of data.) (RS)

In search of a place to call home, thousands of Hmong families made the journey from the war-torn jungles of Laos to the overcrowded refugee camps of Thailand and onward to America. But lacking a written language of their own, the Hmong experience has been primarily recorded by others. Driven to tell her family's story after her grandmother's death, *The Latecomer* is Kao Kalia Yang's tribute to the remarkable woman whose spirit held them all together. It is also an eloquent, firsthand account of a people who have worked hard to make their voices heard. Beginning in the 1970s, as the Hmong were being massacred for their collaboration with the United States during the Vietnam War, Yang recounts the harrowing story of her family's captivity, the daring rescue undertaken by her father and uncles, and their narrow escape into Thailand where Yang was born in the Ban Vinai Refugee Camp. When she was six years old, Yang's family immigrated to America, and she evocatively captures the challenges of adapting to a new place and a new language. Through her words, the dreams, wisdom, and traditions passed down from her grandmother and shared by an entire community have finally found a voice. Together with her sister, Kao Kalia Yang is the founder of a company dedicated to helping immigrants with writing, translating, and business services. A graduate of Carleton College and Columbia University, Yang has recently screened *The Place Where We Were Born*, a film documenting the experiences of Hmong American refugees. Nanotechnology is often described as an emerging technology - one that not only holds promise for society, but also is capable of revolutionizing our approaches to common problems. Nanotechnology has direct beneficial applications for medicine and the environment, but like all technologies it may have unintended effects that can adversely impact the environment, both within the human body and within the natural ecosystem.
