Blue collar Sci Fi in the vein of Firefly. Running a starship repo company isn't easy or cheap. It's just an endless string of fuel costs, ship maintenance, legal red tape, unhappy debt bailers, shady associates and uncooperative dock officials from one end of the galaxy to the other. Nathan Teller owns and operates Milky Way Repossessions, a company that tracks down and repossesses starships. And although he's only managing to break even on his debt, he wouldn't trade it for anything. (His ex-wife holds that against him. No surprise there.) When Nathan and his crew successfully steal a freighter from the clutches of a particularly tenacious and corrupt dock official, he earns the respect of their

high profile employer. Opportunity seems a sure thing. Nathan should be happy. But when that lucrative job op turns into a ransom delivery for a starship crew being held hostage by a cult, he suddenly finds himself pursued by a self-immolating loan shark hell bent on collecting a gambling debt. How will it all turn out? You never know. Especially when Nathan and his Starship repo agents are up against a cult and the mob... "I think Milky Way Repo carves out a unique niche in science fiction by presenting protagonists that work hard for a living, sort of a genre of blue collar sci-fi. The world is bigger than them and there isn't a large fascist government operating against them. In this case, the characters struggle to make ends meet and do so against forces that are relatable; the economy, employers that hold sway over workers, religious elements, and organized crime figures that move in the shadows." -- Michael Prelee, author

Learn to love your body—for real this time Women in touch with the wisdom of their bodies are the single greatest threat to societal systems of domination, oppression, and control. We are also the greatest possibility to bring healing, peace, and restoration to our world. —Lauren Geertsen No matter how much we try to tell ourselves to love our bodies and accept our flaws, most women can't quite get there. Even though we know the beauty standard is unrealistic, we secretly feel like it would be so much easier if our stomach were just a little flatter, or our skin a little smoother, or a million other little things. As a result, we sacrifice our health, heritage, sanity, and lives on the altar of beauty culture. Why is it so hard to feel confident about our bodies, or even just accept them? Because willpower alone isn't enough to undo generations of brainwashing intended to repress women's confidence and power. In *The Invisible Corset*, Geertsen carefully illustrates the psychological gaslighting that leads women to internalize the belief that their appearance makes them not only unworthy of love, but incapable of fulfilling their actual destiny. By highlighting each restricting string of the invisible corset all women wear, Geertsen helps us reclaim our bodies for ourselves, discovering newfound confidence, power, joy, and pleasure as we do. You'll explore: How the invisible corset cuts you off from your body's wisdom and nature's intelligence—the true sources of your intuition, pleasure, and power How beauty culture is the most recent form of patriarchal oppression — and why women are both responsible and able to free ourselves Why the body positivity movement often makes self-criticism even worse The racist history of beauty culture, and how it still perpetuates racism today Journaling prompts, rituals,

meditations, and other exercises to help unravel the toxic beliefs that keep the invisible corset in place A variety of practices to help you reconnect with your body—to tune into your intuition, set healthy boundaries, align with your True Self, and more For any woman who is ready to go from struggle, discomfort, control, and shame to pleasure, confidence, freedom, and soul-fulfilling purpose, *The Invisible Corset* is an essential guide.
