In this seminal work, Steiner lays out practical means of attaining metaphysical knowledge and mystical experience. "There slumber in every human being faculties by means of which he can acquire for himself a knowledge of higher worlds. Mystics, Gnostics, Theosophists — all speak of a world of soul and spirit which for them is just as real as the world we see with our physical eyes and touch with our physical hands. At every moment the listener may say to himself: that of which they speak, I too can learn, if I develop within myself certain powers which today still slumber within me. There remains only one question — how to set to work to develop such faculties."

"Knowledge Of the Higher Worlds And Its Attainment" was originally published in 1938. This inspiring book by Rudolf Steiner offers a wealth of knowledge on the path of esoteric initiation. Included is much information on the higher body, higher planes of existence, and the spiritual encounter with the 'Guardians of the Threshold, as well as basic information on the mystical belief system. This book would be an excellent addition to the bookshelf of anyone with an interest in the subject. Contents Include : How is Knowledge of the Higher World Attained?; The Stages of Initiation; Some Practical Aspects; The Conditions of Esoteric Training; Some Results of Initiation; The Transformation of Dream Life; The Continuity of Consciousness; The Partition of Human Personality During Spiritual Training; The Guardian of the Threshold; The Great or Second Guardian of the Threshold. Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition complete with a specially-commissioned new biography of the author.

This is the classic account of the modern Western esoteric path of initiation made public by Steiner in 1904. He begins with the premise that "the capacities by which we can gain insights into the higher worlds lie dormant within each one of us." Steiner carefully and precisely leads the reader from the cultivation of the fundamental soul attitudes of reverence and inner tranquility to the development of inner life through the stages of preparation, illumination, and initiation. Steiner provides practical exercises of inner and outer observation and moral development. By patiently and persistently following his guidelines, new "organs" of soul and spirit begin to form, which reveal the contours of the higher worlds thus far concealed from us. Steiner in this important work becomes a teacher, a counselor, and a friend whose advice is practical, clear, and effective. The challenges we face in life require increasingly deeper levels of understanding, and Steiner's text helps readers to cultivate the capacities for such insights and places them at the service of humanity. This is Steiner's most essential guide to the modern path of initiation he advocated throughout his life. It has been translated into many languages and has inspired hundreds of thousands of readers around the world. How to Know Higher Worlds has been admired by some of the most brilliant minds of our time. Contents: Foreword by Arthur Zajonc Prefaces by Rudolf Steiner How to Know Higher Worlds The Stages of Initiation Practical Considerations Requirements for Esoteric Training Some Effects of Initiation Changes in the Dream Life of the Esoteric Student Achieving Continuity of Consciousness The Splitting of the Personality in Esoteric Training The Guardian of the Threshold Life and Death: The Great Guardian of the Threshold Epilogue (1918) Afterword by Arthur Zajonc Index "A true classic of spiritual literature. It is one of the best ways I know for opening up one's life to the spiritual realms in a manner that is balanced, integrated, and loving. It is the product of a great soul who pointed out new routes into the interior."--David Spangler, author of Blessing: The Art and the Practice "It is not only a personal guide to the spirit, but also a path through self-knowledge to compassionate action in the world."--Arthur Zajonc, author of Catching the Light: The Entwined History of Light and Mind

"In human life joy is usually something one has not deserved through previous actions. When we investigate karma by occult means, we always discover that in most cases joy has not been earned, and we should accept it gratefully as sent to us by the gods, as a gift of the gods, and to say to ourselves: The joy which comes to meet us today ought to kindle in us the will to work in such a way as to take into ourselves the forces streaming to us through this joy, and to apply these usefully. We must look upon joy as a sort of prepayment on account for the future." The quintessential guide for the spiritual seeker from the deeply gifted mystic. PREFACE TO THE EDITION OF MAY 1918 PREFACE TO THE SIXTH EDITION PREFACE TO THE THIRD EDITION I. HOW IS KNOWLEDGE OF THE HIGHER WORLDS ATTAINED? II. THE STAGES OF INITIATION III. SOME PRACTICAL ASPECTS IV. THE CONDITIONS OF ESOTERIC TRAINING V. SOME RESULTS OF INITIATION VI. THE TRANSFORMATION OF DREAM LIFE VII. THE CONTINUITY OF CONSCIOUSNESS VIII. THE SPLITTING OF THE HUMAN PERSONALITY DURING SPIRITUAL TRAINING IX. THE GUARDIAN OF THE THRESHOLD X. LIFE AND DEATH: THE GREATER GUARDIAN OF THE THRESHOLD APPENDIX

Rudolf Steiner's fundamental handbook for spiritual and personal development has grown more modern as time has passed, although his methods remain clearly distinguishable from the many others now in circulation. For one thing, Steiner's path of spiritual growth is based on the clarity of thought normally associated with scientific research. Rather than denying clear thinking, his aim is to extend it beyond its present limitations. Secondly, Steiner recognizes - as all genuine disciplines always have - that the path to spiritual experience is an arduous and dangerous one, calling for self-control in thought, word and deed. Human beings comprise a unity, and we cannot develop knowledge without a corresponding development in feeling and will. Rudolf Steiner foretold that humanity would begin to experience a longing for forms of experience that transcended intellectual, materialistic thinking. More than one hundred years after the first publication of this book in 1904, there are countless means to achieve such experience, such as eastern meditation, channelling, remote viewing and astral projection. In addition, there has been a huge growth in people reporting extrasensory perceptions of various kinds, such as near-death experiences and meetings with angels. In this context, Steiner's key spiritual workbook - reproduced here in the classic Osmond/Davy translation - is needed more than ever, given its unique, precise instructions for inner training, its protective exercises, and its indications for grounding and centring. Knowledge of the Higher Worlds begins with the conditions required for personal development, and guides us through the stages of initiation, its practical aspects and its effects.

This volume contains two books by Rudolph Steiner- 1) Knowledge of the Higher Worlds 2) HOW TO KNOW HIGHER WORLDS 1) Knowledge of the Higher Worlds and Its Attainment constitutes a fundamental guide to the anthroposophical path of cognition or knowledge. In human consciousness, faculties are sleeping that, if awakened, lead to life-giving wisdom. With great clarity and warmth, Rudolf Steiner details the exercises and moral qualities to be cultivated on the path to a conscious experience of supersensible realities. 2) How to know higher Worlds -we read this book closely, so that reading it becomes an inner experience, we will not only come to know its contents, but different passages will also evoke different feelings. These feelings indicate the significance of these different passages for our own soul development and help us to discover how to adapt the various exercises to our own individual natures.

Start Now! offers an extensive and representative sample of Steiner's spiritual instructions and meditative practices, including meditation instructions; mantric verses; daily, weekly and monthly practices for the development of soul qualities; karmic exercises and meditations for working with the dead, the angelic hierarchies and our guardian angel.

Outline of the processes of cosmic evolution, including detailed exercises for attaining higher conscious states.

In 1904, in the magazine Lucifer-Gnosis, Rudolf Steiner published some of his earliest articles on self-development, which became his classic How to Know Higher Worlds: A Modern Path of Initiation. Steiner continued his articles as "The Stages of Higher Development." He wrote of his intention in 1914: "A second part [of How to Know Higher Worlds] is to be added to this first part, bringing further explanations of the frame of mind that can lead to the experience of higher worlds." Though Steiner never found time to publish those articles as a book, they are collected in this volume, The Stages of Higher Knowledge records some of Steiner's early esoteric instructions, revealing how he became a pioneer of modern inner development and spiritual activity. He carefully guides the reader from an ordinary, sensory-based "material mode of cognition" through the higher levels of knowing he calls Imagination, Inspiration, and Intuition. This small handbook will help anyone who wishes to take a serious approach to Anthroposophy as a path of knowledge, especially those who have already studied and worked with How to Know Higher Worlds.

Part one, ?A Way of Self-Knowledge, ? contains eight meditations that take the reader on a journey through human experience. Beginning with ordinary experience, Steiner offers ways to imagine and understand the physical body, the elemental (or etheric) body, the elemental world, the Guardian of the Threshold, the astral body, the I-body (or thought body), the nature of experience in suprasensory worlds, and ways of perceiving previous earthly lives. Part two, ?The Threshold of the Spiritual World, ? contains sixteen short chapters in which Steiner provides aphoristic thoughts on trusting one's thinking? cognition of the spiritual world? karma and reincarnation? the astral body and luciferic beings? how to recognize suprasensory consciousness; the true nature of love; and more.
