## Leading a discussion of a scientific paper | Arthropod Ecology

In science, the high-leverage practice of leading a group discussion is closely connected to the high-leverage practice of supporting students to construct scientific explanations and build arguments, thus there is overlap between the two resource guides. The “content point” of many whole-group science discussions is often a student-constructed scientific explanation.

Leading Discussion of a Scientific Journal Article.  
by T. W. Sherry Science departments at many universities convene regular discussions of contemporary research, journal articles, or even ideas or studies done by group participants. This forum thus provides an opportunity to evaluate embryonic or fully-fledged research results, to keep abreast of newly published ideas or books, and to develop or teach communication skills.

## DISCUSSION: Summary

Classroom discussion is a time-honored way to learn. It is also an evidence-based way to help students retain information, pay attention, and gain real insight. However, if you're a discussion leader, you may be nervous. Preparing for, opening, and continuing a great discussion is a skill you can learn. These steps advise you on every aspect of leading a good discussion, from keeping

This study from The Lancet was published late last year, reflecting a major success for a large international team. What that paper title doesn't tell you is that we finally have an Ebola vaccine that's up to 100 percent effective! "When the next outbreak hits, we will not be defenceless," lead researcher Marie-Paule Kieny said in December 2016.
