Older than Western astrology, the Japanese version–Nine Ki or feng shui astrology–is concerned with chi energy or the life force. In Practical Astrology by Numbers, feng shui authority Simon Brown helps you understand Nine Ki–the energy present on the day you were born, and the way it has shaped your character and personality. This highly illustrated guide is designed to help you to better realize your full potential; be more effective in resolving problems; choose supportive partners and better understand your relationships; plan important events; promote your career and achieve financial success; and select favorable locations and times for moving, traveling, and setting up a new business.

Numerology – the science, psychology and philosophy of numbers – enables us to use our mind and intuition to observe, connect with and interpret the cycle of numbers governing all aspects of life (1 to 9). Each of these numbers has its own set of qualities and meanings that can influence us at different levels – physical, emotional, mental and spiritual – in order to really make the most of life. After an insightful introduction about why the subject of Numerology is so worth exploring and the benefits it can bring, each main chapter then addresses key questions such as: Where does Numerology come from and how does it work? What are the benefits of applying Numerology to our lives? Can Numerology give me more insight into my own, or others', character? Can Numerology influence my aspirations and decisions in life? And finally, how can Numerology help me to become more aware of the bigger picture in life and make a wider contribution to society?

If You Want to Calculate Your Life Path And Know What Numbers Know That You Don' t, Then Keep Reading... Do you sometimes question if you are on the right path or if you are wasting your time on something you are not supposed to do? Do you repeatedly see numbers all around you? I´ m not talking about telephone numbers, area codes or price tags, but patterns that are not 'normal'? 11:11, 333, 666? Do you ever recognize certain character traits among people that are born in the same month? What if all the 'coincidences' in your life mean much more than you think on first sight? There is a 4000-year-old science based on the mathematics of the universe called numerology. Instead of 1+1, you can reveal the message behind everything that is happening in your life right now. And even more. Once you discover how to decode numbers and understand how astronomical phenomena impact a person´ s personality, you can not only predict, but also change your future for the better. Imagine you had the ability to decide your child´ s destiny? The day and month someone is born shapes who they are today and who they are going to become. There is no such thing as coincidence. People fear numbers and astrology because it´ s easier to blindly follow their fellows. Most of us live in a fake bubble of who we are and what we are doing on this planet. Looking deeper into numbers and the position of celestial objects requires strength and willpower. From now on, you can take charge of your destiny. Always remember, the universe has your back and you will receive the same energy back that you send out. In Numerology and Astrology for Beginners, you'll discover: How the flap of a butterfly's wings in Mexico cause a giant change in your life The man's name that 666 stands for and if you should be worried (Find the answer on page 12) Why you are missing out on an exciting adventure if you are not paying attention to this one number in your life (hint: between 0-10) Why 911 is the universal help hotline if you want a change in life Which numbers can help to heal physical and mental diseases How to become pregnant at the right time to ensure your child has a healthy and prosperous future The 12 zodiac signs, their meanings, and assets to achieve your goals Cheat sheet for a stronger and more passionate relationship Why some people feel like they are born in the wrong family and why they are right How to choose your friends and partners wisely and prevent yourself from energy draining relationships How and which numbers predicted the success of Apple, BMW, Microsoft and Co. (page 41) And much more. If this is your first contact with astrology and numerology, you might be skeptical if this unknown science is trustworthy. We have all heard the sentence 'Only an idiot would believe that the month you are born could have effect on your personality.' But what if I tell you that science has proven: you are more likely to be diagnosed with schizophrenia if you are born in February suicide is strongest in people born in between April and June you could be suffering from dyslexia if you are a summer baby If you still think it´ s all hocus-pocus, then you must be a Gemini (they tend to be over skeptical).

More often than not, people think of astrology as a tool for divination or the exploration of one's personality. Astrology is considerably more than that. It is a sacred science, a highly descriptive symbolic language, and it is also a technology that can be applied to ritual, herbalism, the use of crystals, and much more. This is a practical handbook for any practitioner of magic to use in building individual rituals and creating the most effective magic. Concise, focused, and expertly presented, this book teaches the core concepts of astrology so that wiccans and pagans can truly apply it to their practices.

1901 a simple method of casting horoscopes. the language of the stars easily comprehended unfolding the wonderful wisdom of the Chaldean, Egyptian, Greek & Arabian astrologers, without any of the complicated, discouraging operations required by other me.

An introduction to astrology includes a zodiac reading for each day of the year

For thousands of years people have been aware of the significance of numbers. The early Greeks taught that numbers are central to the understanding of life itself, while Galileo, the medieval Italian astronomer, said, "The book of nature is written in mathematical language". This attractively presented book explains both the history and theory of numerology, and, through practical advice, opens the door on a new world of possibilities. Rather than enduring the effects of various life circumstances, we can, through numerology, take part in their rhythmic process, one that links us with universal purpose and meaning. Numerology offers us the ability to order and control our lives.

You will find the essence of extensive research carried out by the Author during the last 50 years and experience gained thereby resulting a wealth of information on numerology. Making use of such knowledge, first you can apply the latest methods of Numerology explained in this book to your domestic life events which will show positive results. Subsequently, making use of Major life events of other known persons, as illustrated in this book, you can yourself be fully satisfied of the numerical patterns of such life events. This will pave way for you to identify most of the un-revealed secrets of Practical application of numerology to the life events of individuals, historical events, and important political or social events.
