In the no-holds-barred tradition that has won him so many fans across the nation and around the world, best-selling author and strategist Ralph Peters confronts the crucial security issues of our time--and the troubled times to come.

Blood, according to Gil Anidjar, maps the singular history of Christianity. As a category for historical analysis, blood can be seen through its literal and metaphorical uses as determining, sometimes even defining Western culture, politics, and social practices and their wide-ranging incarnations

Read Online Ralph Peters Blood Borders How Armed Forces Journal

in nationalism, capitalism, and law. Engaging with a variety of sources, Anidjar explores the presence and the absence, the making and unmaking of blood in philosophy and medicine, law and literature, and economic and political thought from ancient Greece to medieval Spain, from the Bible to Shakespeare and Melville. The prevalence of blood in the social, juridical, and political organization of the modern West signals that we do not live in a secular age into which religion could return. Flowing across multiple boundaries, infusing them with violent precepts that we must address, blood undoes

Read Online Ralph Peters Blood Borders How Armed Forces Journal

the presumed oppositions between religion and politics, economy and theology, and kinship and race. It demonstrates that what we think of as modern is in fact imbued with Christianity. Christianity, Blood fiercely argues, must be reconsidered beyond the boundaries of religion alone.

Now available in paperback In the no-holds-barred tradition that has won him so many fans across the nation and around the world, best-selling author and strategist Ralph Peters confronts the crucial security issues of our time--and the troubled times to come.

Read Online Ralph Peters Blood Borders How Armed Forces Journal

With his trademark clarity and force, Peters argues that we have left behind the Age of Ideologies to enter a violent period in which ethnicity and religion--blood and faith--will continue to be the source of ferocious rebellions, genocide, and global terrorism. His compelling vision spares neither our foreign policy nor our domestic follies as he ruthlessly outlines what it will take to protect our country against this new breed of enemies. Russia is back as an aggressive imperialist power. We have forgotten what it takes to win wars, leading to tragic, unnecessary failures. Too many Americans

Read Online Ralph Peters Blood Borders How Armed Forces Journal

still refuse to take our enemies seriously, even though terrorists and foreign leaders are bent on inflicting apocalyptic destruction on us. hose enemies will use nuclear weapons, if allowed to possess them. Religious wars are impossible to prevent--because our enemies desire them. The Middle East is headed for greater chaos, and Israel may not survive. Despite these challenges, the United States will remain the world's most successful and greatest power--but the cost will be determined by our willingness to face a new century's brutal realities. Wars of Blood and Faith continues

- how the US response to 9/11 and the problematic interventions in Afghanistan and Iraq have suffered as a result of this neo-conservative influence on American foreign policy since 1945.

This book discusses the rapid erosion of social pluralism and the concomitant “religious cleaning” of religious minorities in the Middle East. It focuses on five crucial years between the “Arab Spring” uprisings of 2011 and the U.S. government’s genocide determination in 2016 regarding religious minorities in the Middle East.

Read Online Ralph Peters Blood Borders How Armed Forces Journal

Focusing on unusual international border shapes, this fascinating book highlights the important truth that all borders, even those that appear "natural," were created by people. The unique and compelling histories of some of the world's oddest borders provide an ideal context for accessible and enlightening discussions of cultural globalization, economic integration, international migration, imperialism, postcolonialism, global terrorism, nationalism, and supranationalism. Each contributor's regional expertise enriches a

textured account of the historical context in which these borders came into existence as well as their historical and ongoing influence on the people and states they bound.

The Routledge Handbook of Persian Gulf Politics provides a comprehensive and up-to-date analysis of Persian Gulf politics, history, economics, and society. The volume begins its examination of Ottoman rule in the Arabian Peninsula, exploring other dimensions of the region's history up until and after independence in the 1960s and 1970s.

Featuring scholars from a range of disciplines, the book demonstrates how the Persian Gulf's current, complex politics is a product of interwoven dynamics rooted in historical developments and memories, profound social, cultural, and economic changes underway since the 1980s and the 1990s, and inter-state and international relations among both regional actors and between them and the rest of the world. The book comprises a total of 36 individual chapters divided into the following six sections: Historical Context Society and Culture Economic Development Domestic

Politics Regional Security Dynamics The Persian Gulf and the World Examining the Persian Gulf's increasing importance in regional politics, diplomacy, economics, and security issues, the volume is a valuable resource for scholars, students, and policy makers interested in political science, history, Gulf studies, and the Middle East.

Militarizing Culture is a rousing critique of the American warfare state by a leading cultural commentator. Roberto J. González reveals troubling trends in the post-9/11 era, as the military industrial complex

Read Online Ralph Peters Blood Borders How Armed Forces Journal

infiltrates new arenas of cultural life, from economic and educational arenas to family relationships. One of the nation's foremost critics of the Human Terrain System program, González makes passionate arguments against the engagement of social scientists and the use of anthropological theory and methods in military operations. Despite the pervasive presence of militarism and violence in our society, González insists that warfare is not an inevitable part of human nature, and charts a path toward the decommissioning of culture.

Never before have Americans paid so much attention to Islam and Muslim ideology. Although efforts have been made to separate mainstream views from extremist principles, Muslims feel that many of their basic beliefs are under attack in the ongoing war of ideas. The author explores why, surveying a broad swath of accusations and efforts to change Muslim and Islamist ideas and institutions.

Before the immense changes of the 2011 'Arab Spring', it was Sunni-Shia sectarian rivalry that preoccupied most political analyses of the Middle East. This book presents wide-
