Pinto is a middle level officer in the Internal Security Agency, or ISA who discovers, through a series of episodic experiences that the template for catching spies is not the gun toting flamboyance of James Bond. Nor, for that matter, is it the dull grey world of Smiley's People. Much of it is patient pursuit and back end planning lit by the occasional flash of brilliance. Yet, even if there are no adrenaline spikes and meetings in the shadows of the gloaming; Pinto enjoys his job with the all the mental challenges and the perseverance it requires. Like in any other government department, Pinto too has to deal with failing room coolers, an aging car and the quirks of officialdom; but there is a professional core in the organization that, with good humour, sensitivity and patience, is able to carry the day. The book also has side stories that, though occasionally anecdotal, paint Pinto's life in vibrant colours.

the wrong hands. Raven must infiltrate the weapon itself and sabotage key components. To get the job done, she must elude the weapon's security and escape detection, even as the forces of several governments align against her. Coming out of this alive will require the help of her brother Gideon, his guns, and every bit of luck she's never had. But there's no choice. If she's ever going to get a ship to call her own she first has to keep the universe from blowing up.

Orson Scott Card offers a Christmas gift to his millions of fans with *A War of Gifts*, a short novel set during Ender Wiggin's first years at the Battle School where it is forbidden to celebrate religious holidays. The children come from many nations, many religions; while they are being trained for war, religious conflict between them is not on the curriculum. But Dink Meeker, one of the older students, doesn't see it that way. He thinks that giving gifts isn't exactly a religious observation, and on Sinterklaas Day he tucks a present into another student's shoe. This small act of rebellion sets off a battle royal between the students and the staff, but some surprising alliances form when Ender comes up against a new student, Zeck Morgan. The War over Santa Claus will force everyone to make a choice.
